

- GHIZLANE ELOUARGUI -

Front-End Developer | Angular Specialist | 2 Years Building Scalable Web Interfaces

Morocco • +212 638301762 • Ghizlaneelouargui@gmail.com • [Linkedin.com](#) • [GitHub.com](#)

Front-End Developer with 2 years of experience building scalable and responsive web applications using Angular. Proven track record working in the **SaaS industry**, delivering high-quality user interfaces and features for cloud-based platforms. Skilled in turning complex UI/UX designs into clean, efficient code. Strong collaborator in Agile environments, with a passion for user experience, performance optimization, and maintainable front-end architecture

PROFESSIONAL EXPERIENCE

Devstask, Remote • Front-End Developer (Full-Time)

Feb 2023 – Mars 2025

- Developed and maintained two Angular-based web applications: a public marketing website and a SaaS dashboard for company management.
- Collaborated closely with cross-functional teams in an agile environment using **Jira** to plan and deliver features efficiently.
- Utilized **Bitbucket** and **Git** for version control and collaborative development.
- Implemented responsive and user-friendly UIs, ensuring consistent performance across modern browsers and devices.
- Contributed to scalable front-end architecture with a focus on clean code and reusable components.
- Participated in code reviews, sprint planning, and daily stand-ups to support continuous delivery and team alignment.

SeachCept, Agadir • Front-End Developer intern

April 2023 – May 2023

- Built the front-end of a restaurant management dashboard from scratch using React and Tailwind CSS.
- Worked in a small startup team, contributing to UI design, component structure, and front-end logic.
- Developed responsive layouts and interactive features to manage orders, tables, and staff efficiently.
- Practiced effective communication and collaboration in a fast-paced, startup environment.

EDUCATION

Bachelor's Degree in Computer Science • ESMA (Ecole Supérieure de Management Appliqué), Marrakech
Graduation Year 2023

SKILLS

Programming Languages: JavaScript, TypeScript, HTML5, CSS3, SASS

Frameworks & Libraries: Angular, React, Tailwind CSS

Version Control: Git, Bitbucket

Build Tools: Npm, Yarn

Agile Methodologies: Scrum, Jira

Tools: GitHub, Jira, Bitbucket, VS Code

PROJECTS

Dashboard App • Angular, TypeScript, HTML, SCSS

A front-end dashboard interface built using Angular and SCSS, designed for company management use cases. Focused on component structure, routing, and reusable UI elements to simulate a real-world SaaS dashboard.

Twitter Clone (UI) • JavaScript, Bootstrap, Figma

A front-end replica of Twitter's main page. Recreated the layout and interactions based on Figma designs using vanilla JavaScript and Bootstrap for responsiveness and UI elements.

Weather App • JavaScript, Bootstrap, OpenWeatherMap API

A web app that fetches real-time weather data based on user input. Utilized asynchronous JavaScript, API integration, and responsive Bootstrap layout for optimal UX on all devices.
